

Hello,

i’m Vishnu

Senior Visual & Brand Designer

Phone: 7559094842 Email: vishnu531999@gmail.com Portfolio

Profile

Visual Brand Designer with 5+ years of experience shaping brands through identity, visual communication, and digital design across service-based and product-based companies. My experience includes logo design, brand identity, social media creatives, marketing materials, reports, presentations, data visualization, and visual systems.

I have independently managed diverse design requirements while collaborating with teams, sharing ideas, and finding better ways to improve creative workflows. Working with data-driven products has strengthened my ability to simplify complex information into clear, engaging, and visually effective designs. I believe good design should not only look good but also communicate clearly and serve a purpose.

Education

2013-2014 - SSLC - GHSS kizhakkencherry High School

2014-2016 - +12 - EMINENT Collage Vadakkencherry

2016-2017 - Higer Diploma in C THECH HD FX, Image Creative Education, Palakkad

Experience

Webandcrafts (Koratty Infopark) 2021-2023 - Graphic designer

Worked as part of a larger design team in a service-based company, creating commercial visual content for a variety of clients and business requirements. My work primarily focused on social media creatives, marketing campaigns, promotional graphics, branding assets, and other digital design requirements.

Nuvento Systems (Kochi Infopark) 2023-2024 - Senior Graphic designer

Worked in a product-based company, handling a wide range of visual communication and data-driven design requirements. Restructured Nuvento's branding from scratch, creating a more consistent and cohesive visual identity. Responsibilities included graphic design, data visualization, reports, presentations, charts, tables, infographics, and other visual assets designed to communicate complex information clearly and effectively.

Turbolab Tech (Kochi) 2024-Present - Senior Visual Designer & B2B Data & Visualization

Worked independently as a designer for a B2B product-based company, taking ownership of a wide range of visual communication requirements. I handled reports, data visualization, graphs, charts, LinkedIn banners, blog visuals, social media creatives, and other marketing and product-related design assets, ensuring consistency across the brand's visual communication. I also identified workflow challenges in creating data visuals manually and developed a productivity tool called Workspace to simplify the creation of graphs, charts, infographics, tables, and flowcharts, improving design efficiency and streamlining the visual content creation process.
